Hi {{first name}},

I'd strongly recommend taking a look at MediQo — a single platform that replaces hours of admin with secure, accurate, real-time medical AI.

Here's what it includes:

• AI Phone Receptionists
• Smart MBS Billing
• Full Billing Audits
• AI-assisted Care Plans and Treatment Plans
• Patient Education Letters
• Evidence-based clinical answers
• Telehealth with LIVE AI scribing

It's fully integrated, 100% Australian-hosted, and designed to help clinics operate more efficiently without adding workload.

• Book a demo: https://calendly.com/mediqo-support/30min
• Sign your clinic up for a free trial: https://calendly.com/mediqo-support/trial

Let me know what you think!

Best,
{{Your Name}}
